

2010 CAMP RX INFORMATION TEEN PROGRAMS

After each summer, we evaluate all aspects of our programs to determine ways in which we can provide our campers with the very best care. The safety of the campers, including proper medication distribution, is our primary concern. We have chosen to require our teen program families to have campers' medications that are dosed in pill form pre-packaged and sent to camp prior to their arrival. For the coming summer, we will utilize the services of CampRx for:

- All medicine taken daily (prescription and non-prescription), including vitamins
- All medicine taken "as needed"

As discussed at the Camper Orientation Meetings, medications in pill form are individually packaged and sealed according to date and time of administration and identified by camper name. Each individual packet may contain one or more pills prescribed for that particular dose time. This will allow our counselors more time to devote to the rest of your child's experience.

Please keep in mind that Tamarack Camps stocks the most common over-the-counter items, such as Tylenol, Advil, Benadryl, etc., which do not need to be provided by parents.

All medications are dispensed at breakfast, lunch, dinner and at bedtime, unless specifically written on the prescription. You are responsible to ensure that your child's prescriptions specify exactly how and when each medication is to be dispensed. The price of the CampRx service is \$5 for campers taking only over-the-counter medications and \$15 for campers who take prescription medication in addition to any co-payments required by your health insurance. The fee charged by CampRx is waived for any campers receiving financial aid to attend our programs.

If your camper will be taking medication in pill form at camp this summer, please visit www.camprx.com or call 1-877-302-3881 to register your camper. All medication information must be submitted no later than June 1st. If your camper does not take medication or vitamins, you do not need to register with CampRx.

Please let us know if you have any questions about this program.

Sincerely,
Jason Charnas
